BESPOKE DESIGN

WATERJET CLEAN™

AUTO OPEN DOOR

SMARTTHINGS

BESPOKE Design

Create a beautifully stylish and unique kitchen space with a customisable design. Its replaceable panels are available in a choice of various stylish colours.* So you can easily personalise the colour to suit your home aesthetics and style preferences, even if they change over time.**

Auto Open Door

Get sparkling clean dishes every time with the Auto Open Door feature. When the rinse and dry process is complete, the door automatically opens 10cm to allow steam to escape. It gives you faster and better drying results than conventional methods.

WaterJet Clean™

Get better washing results using the new WaterJet Clean™. With rotating dual wash arms it delivers more intensive cleaning from every angle. Its two spray arms have separate water jets and rotate in opposite directions. So it cleans heavily soiled pots, pans and dishes rapidly and thoroughly.

SmartThings

Optimise how you use the dishwasher to suit your lifestyle. The SmartThings App*** lets you remotely monitor and control it on a smartphone and download specialist programs. It helps you reduce energy use, manage consumables and resolve errors.

*The replaceable panels are available in 5 colours: 4 glass finishes - Clean White, Clean Black, Clean Navy, Satin Beige, 1 metal finish - Cotta Beige. The choice of textures and colours may differ by country.

Available on the DW60CB750UAPSA model. You can replace the panels at any time after the initial purchase by purchasing a separate panel. *Requires a wireless network, a Samsung account and the Samsung SmartThings App. The Samsung SmartThings App supports Android OS 8.0 (Oreo) or later, which is optimised for Samsung smartphones. This App also supports iOS 13 or later for iPhone models. The SmartThings App is available in the App Store and Play Store. Available in certain languages, including English, French, German, Italian and Spanish.
