EXPRESS WASH**

Wide LED Display

Enjoy a simpler and more intuitive way to clean your dishes with a large and wide LED display that is easy to read. You can quickly check the status, settings, remaining time and cycle progress at a glance, even from a distance. So you can effortlessly monitor and control the washing performance.

Hygiene Option

A Hygiene option can be activated with certain programs to get everything hygienically clean. It extends the final rinse and increases the water temperature to 70 °C, which enables deeper cleaning and kills off bacteria and germs. So your dishes, cutlery and cooking utensils are always safe to use.

Flexible 3rd Rack

A Flexible 3rd Rack provides a dedicated space at the top for small and light items, such as cutlery and utensils. So items stay safe, but are still cleaned thoroughly by powerful jets of water.

60 Min Express Wash

A 60 minute Express Wash option gets your dishes clean and dry much faster. It's ideal for smaller loads of lightly soiled items that don't need really intensive cleaning, such as cups, cutlery and dinner plates, as it will put them through a complete washing and drying cycle within just 60 min.
