FLEX ZONE

TRIPLE COOLING + PRECISE COOLING

SEMI-BUILT IN DESIGN

Customiseable Design

Create a beautifully stylish and unique kitchen space that truly stands out. The Bespoke French Door Refrigerator has a customisable design, so you can choose a finish that blends perfectly with your kitchen space. Panels (sold separately) are available in 2 finishes; Cotta Metal and Glam Glass. You can also combine these finishes with various door colours, including Cotta Charcoal, Cotta White, Glam White, Glam Navy and Glam Pink, to best suit your palate.

Triple Cooling + Precise Cooling

Keep food fresh and preserve its natural flavour and taste. Triple Cooling independently controls the temperature and humidity in 3 compartments and prevents odours from mixing. Precise Cooling also minimises any temperature fluctuation to preserve the quality and texture of food.

Flex Zone

Keep different foods fresh and tasty in their optimal conditions. The FlexZone™ is an independently controlled compartment with five pre-set modes: Freeze, Soft Freeze, Meat/Fish, Fruits/Veggies and Beverage. There's also a Flex Crisper™ for meat or fish and a Crisper+™ for fruit and vegetables.

Semi-built in design

Elevate your kitchen aesthetic with clean and clutter free styling. The Bespoke French Door Refrigerator fits seamlessly into your kitchen only requiring 7mm of side clearance.

* Panels sold separately.

* 20 year warranty is limited to the compressor only.
