- Dimensions:
(W) 595 mm
(H) 1700 mm
(D) 663 mm

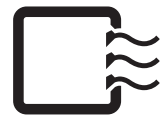

1700mm

OPTIMAL FRESH ZONE

DIGITAL INVERTER
COMPRESSOR

POWER DEODORISER

Optimal Fresh Zone

The Optimal Fresh Zone allows you to adjust the temperature to store food for longer without freezing. With a range from -3C for meat to 9C for fruit and vegetables, it suits any occasion.

Power Deodoriser

The Power Deodoriser is made of Activated Carbon, which filters the air inside the fridge to eliminate bad smells - keeping the air clean and fresh, and preserving the flavour of your food for longer.

Digital Inverter

The Digital Inverter Compressor automatically adjusts its speed in response to cooling demand, which in turn uses less energy, minimises noise and reduces wear and tear for a longer lasting performance. Backed-up by a 20 year warranty* on the compressor.

Flat Design

The sleek design creates a clean and contemporary look that enhances your kitchen interior. The minimalist snow white finish and strikingly beautiful flat front introduce an added level of sophistication.

* 20 year warranty is limited to the compressor only.
