AI WASH

BESPOKE DESIGN

### AI Bubble Wash

Enjoy more effective washing of clothes and bedding. AI BubbleWash™\* detects the fabric type and improves soil removal by 24%\*\*; washes effectively in cool water, saving up to 70% energy\*\*, and provides 45.5% better fabric care.\*\*\* It even washes thin blankets faster, while saving of water.\*\*\*\*

### AI Wash

Wash clothes thoroughly\*, but gently with less waste and effort.\*\* AI Wash uses advanced sensing to detect the weight and softness of the fabric and continually monitor the level of soiling. It then intelligently optimises the water and detergent and the soaking, rinsing and spinning times.

### Auto Open Door

Avoid the frustration of having to wash clothes again because they smell unpleasant if they are not taken out of the washer immediately. When a wash cycle ends, Auto Open Door automatically opens the door to let humid air escape. So your laundry won't develop a musty odour in damp conditions.

### BESPOKE Design

Enhance your home with a sleek, premium look. The simple and flat design blends harmoniously with any modern interior space and will fit with other appliances and kitchen furniture. You also have the flexibility to install your washer and dryer together either horizontally or vertically.\*

\*AI BubbleWash is only activated when specific courses are selected, including Cotton, Synthetics, AI Bedding and AI Wash. \*\*Tested in accordance with IEC 60456-2010 / 4kg Wash Load / Super Eco Wash cold (WF80F5E5U4W) vs. Cotton 40°C without Ecobubble (WF0702WKU). Individual results may vary. \*\*\*Based on the Performance Lab Test report by Springboard Engineering on EMPA strips, comparing a normal detergent solution and bubble technology without mechanical action, tested on polyester fabric. Individual results may vary. \*\*\*\*Based on internal testing, IEC bed sheet 275±15g, on the WF25B9600xx using the AI Bedding course vs. the WF24A9500xx using a normal bedding course. Result: reduced the washing time by 25 minutes and the water consumption by up to 30L. The load includes dry blankets and is under 4kg. Actual results may vary depending on individual use. \*Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. \*Based on an AI-created algorithm. Actual results may vary depending on individual use. \*\*AI Wash holds detergent for up to 1 month's washing, based on the average of 4 loads per week. May vary depending on the washing load and settings. \*Stacking Kit is sold separately as an accessory.
