Smart Control

Smart Control gives you the freedom to control and monitor your washing from anywhere using the Samsung Smart Things app.* Use the app to start or pause the machine, keep an eye on program selections, track your washing cycle and even setup automatic alerts to remind you when your washing is done.

Add Wash

AddWash™ gives you the flexibility to add a forgotten piece of clothing or more fabric softener, even after your wash cycle starts. This is made possible via the Add Door and allows you to keep the wash cycle going without having to drain the drum of water and detergent.*

Smart Wash

Get excellent washing results* with less waste and without extra effort.** Smart Wash uses four types of sensors to sense the weight of the laundry. It then calculates the optimal amount of water and detergent and dispenses it automatically. The turbidity sensor also monitors the level of soiling during the wash. If necessary, it adds more detergent or increases the rinsing time.

Quick Drive

QuickDrive™ reduces the washing time by up to 50% and energy use by up to 20%, without compromising the cleaning performance. Its unique Q-Drum™ has a 'main drum' and a 'back plate' that rotate independently, ensuring clothes move dynamically and are washed quickly, efficiently and gently.*

*Download and installation of SmartThings app is required. Samsung Account required. Available on Android and iOS devices. For interoperability through SmartThings, all the devices should be registered with a single Samsung Account. Auto Cycle Link is only available when both the washer and dryer have AI Control and Wi-Fi connected. Apps and services are subject to change without notice. Data, subscription and other charges may apply. **Auto Cycle Link is only available when both the washer and dryer have AI Control and Wi-Fi connected. *Actual results may vary depending on individual use. **AI Wash holds detergent for up to 1 month's washing, based on the average of 4 loads per week. May vary depending on the washing load and settings. *Only fabric items, clothing, detergent and softener can be added. The AddWash door only opens when the drum temperature is below 50°C. *Tested on WW6800M compared with Samsung WW6500K. Saves 50% time on Cotton (40 °C, half load) and eCotton (40 °C) cycle with washing performance within ±3% and up to 20% energy on Cotton (40 °C, half load) cycle, based on Intertek test data.
