

32L Microwave Oven

- Product Type: Solo
- Colour: Black
- Output Power: 1000W
- Litreage: 32L
- Dimensions:
(W) 517 mm
(H) 297 mm
(D) 384 mm

FOOD WARMING

SOFTEN/MELT

SCRATCH-RESISTANT
CERAMIC INSIDE

POWER DEFROST

Food Warming

The Food Warming keeps foods warm at the proper temperature without over-cooking, allowing foods to stay full of flavour and texture and ready to serve.

Scratch-Resistant Ceramic Inside

The easy-clean, non-stick ceramic interior is scratch resistant and resilient against discolouration. It is also designed to help reduce the growth of certain bacteria on the cooking surface.

Soften/Melt

The Soften/Melt function lets you melt food items such as chocolate and butter and soften food items such as cream cheese with practically one touch of a button.

Power Defrost

Power Defrost mode was created to defrost frozen foods both quickly and evenly, while helping prevent defrosted food becoming soggy as a result. Now you can defrost frozen food to its fresh state, leaving you and your family free to enjoy delicious food whenever you want it.
