- Colour: Clean Black
- Dimensions:
(W) 595 mm
(H) 596 mm
(D) 570 mm

DUAL COOK STEAM

FOOD PROBE

AIR FRY

AI PRO COOKING

Dual Cook Steam

Enjoy oven cooking and steaming at the same time, or add steam to keep food moist. Dual Cook Steam™ lets you prepare healthy steamed dishes, while simultaneously oven cooking various foods with different settings. Or use Add Steam when roasting or baking to ensure food is both crisp and tender.

Air Fry

Enjoy healthier fried food without a deep fryer. Air Fry combines a special tray with hot air circulation that envelops food. It is the ideal way to cook French fries, nuggets or even vegetables as it eliminates excess fat, but everything is still crispy and brown outside and juicy inside.

Food Probe

Check the internal temperature of dishes more easily and ensure they are cooked to suit your taste. The Food Probe eliminates any guesswork by clearly indicating when even large pieces of food have been cooked properly. And there is no need to waste time and heat opening the oven to check.

AI Pro Cooking

Make cooking easy, fun and shareable with professional results using AI Pro Cooking's artificial intelligence (AI). You can remotely view inside and control the oven, and create a time-lapse video as dishes cook. By recognizing*** ingredients it recommends recipes and optimises settings.

*** Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.

*** A dish should be placed in the centre of the oven to achieve the best recognition. The accuracy of the recognition may vary depending on the actual usage conditions, such as the type of ingredients, cleanliness of the cavity and the brightness of the room light. For more detailed information, please refer to the user guide enclosed with the package."
